## **Credit Card Offers Review Customer Service:**

**Customer Service Delivery in Africa** Robert Ebo Hinson, Esi Akyere Mensah, Doreen Anyamesem Odame, 2024-02-26

Customer service management is one of the key pillars of today's business environment. Businesses operating in sub-Saharan Africa and other frontier markets have begun to embrace the concept of customer service management with many incorporating the notion into their mission statements with many forward thinking companies transitioning from a transactional to a more strategic view of the customer. As customers have evolved and transformed from passive audiences to active players, businesses are moving away from the old industry model that sees value as created from goods and services to a new model where value is created by experiences. Today businesses and customers create value through customised co-produced offerings. This co-creation of value helps firms highlight the customer's or consumer's point of view and improve the front end process of identifying customer's needs. Given the increasing recognition of the customer as a co-creator of value, perceptions of customer service quality during COVID 19 and afterwards matter to businesses in Africa looking to thrive in a new post COVID era since customers increasingly face several choices in the bid to access consumer products and services. This book consists of seven chapters beginning with an overview detailing the importance of customer service matters to Africa's development and ending with a discussion of the future directions for enhanced customer service delivery in Africa. Each chapter in this book includes actual customer service and delivery practices from various countries on the African continent including Egypt, Ghana and South Africa and uncovers the challenges, successes and potential areas for improvement in delivering quality customer service.

**How You Can Profit from Credit Cards** Curtis E.

Arnold, 2008-06-06 Who would not be interested in getting an interest free loan for 12 months for any type of purchase just for taking a few minutes to complete a credit card balance transfer offer? Or a free round trip airline ticket twice a year just for making purchases on a rebate card? Or lowering their insurance premiums by hundreds of dollars a year just by raising their credit score? Obviously just about every consumer is interested in saving money and getting freebies. Hence the universal appeal of this book cannot be overstated. Today the average American household has 12.7 credit cards. Banks maximize their profits by nickel and diming and outsmarting their cardholders that's why credit cards are their most profitable product. Banks spend billions enticing consumers with rebates, freebies, low introductory rate offers and airline miles. Learn how to take full advantage of these offers without paying for them through brutally high interest rates, fees and penalties. Arnold offers specific advice targeted to young consumers who are being aggressively targeted by credit card marketers, retirees facing credit discrimination, Americans recovering from bankruptcy or other debt problems and even consumers with great credit. You'll learn the techniques he has personally used to escape credit card debt, creatively finance his wedding car and home purchases and earn thousands in credit card perks every year.
