*Social Reading Cultures on BookTube, Bookstagram, and BookTok* Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media and cultural studies as well as teachers and professionals in the book and library industries.

**Still Reading Romance** Josefine Smith, Kathleen W. Taylor Kollman, 2025-04-01 In a world that commodifies feminism is adapting romance novels for small and big screen projects and the Romance Writers Association is evolving to a more inclusive representative group it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre. It is time to question the cultural capital of traditional archetypes explore the experience of romance readers and question how romance and cultural studies researchers create quantitative qualitative and mixed

methods research. This work centers around a data set collected with a revised version of Janice Radway's *Reading the Romance* survey that will be shared with all the authors of this anthology. By having access to this pool authors will have the opportunity to explore different elements of reader experience and cultural norms in romance fiction and potentially reflect on changes since Janice Radway's seminal work. The norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of Bridgerton and romance series like *Ice Planet Barbarians* exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element and to do so creates an exciting opportunity to create a more inclusive study of popular romance. Offer truly interdisciplinary research on the question of how readers read romance and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.

[Speculative Orientalism: Asian Religions in New Wave Science Fiction](#) Sang-Keun Yoo, 2025-08-21. Examining the works of prominent New Wave science fiction authors from the 1950s-1960s, Sang-Keun Yoo highlights the underexplored connection between American science fiction and Asian religions such as Taoism, Buddhism, and Hinduism. The book considers how the major world wars of the 20th century, Second World War, the Cold War, and the Vietnam War repositioned Asian culture in relation to the science fiction genre in the period. Underpinning this study, Sang-Keun Yoo argues that Speculative Orientalism emerged in American science fiction during the 1950s and 60s. This concept adopted various aspects of Asian religions to envision alternative worlds unburdened by the constraints of colonialism, totalitarianism, racism, and sexism present in contemporary American society. Bringing fresh perspectives to the works of William S. Burroughs, Philip K. Dick, Ursula K. Le Guin, and Samuel R. Delany, this book offers an insightful examination of the role of Asian religions in American science fiction and their impact on the genre's history.

**The Meaning of Myth in Uncertain Times** Evelien Bracke, 2025-12-29. This book examines how ancient mythology forms part of the stories we tell ourselves about today's uncertain times, not only in popular culture but also in sociocultural and political debates. It particularly explores the ways in which classical myths shape how our modern, secular societies think about the interconnected geopolitical, technological, and ecological issues we are facing and our potential futures. Classical myths like those of Achilles, Medea, and Odysseus are everywhere, from films and novels to social media and games. But how and why are we still fascinated with them, particularly now? Can these strange and often painful stories from societies so radically different from our own offer us genuine insights today? This expanded English edition of Evelien Bracke's award-winning Dutch book

Leidraad door het labyrint explores how and why Greek and Roman myths despite their ancient origins are surprisingly meaningful in these times of uncertainty Bracke offers a contextualization and literary analysis of classical mythology looking at both texts and visual media This allows readers to gain a better understanding of how people draw inspiration from the past in their attempt to create a better future and how these stories provide both collective and individual guidance in navigating the turbulent 21st century The Meaning of Myth in Uncertain Times is suitable for students scholars teachers and general readers interested in mythology and ancient Greek and Roman history and culture providing insights that are relevant to the challenges we all face today
