

THE FUTURE OF WORK AND REMOTE JOBS

THE FUTURE OF WORK

Reading Comprehension Passage

What is happening to our working lives as more and more jobs move online? We answer some of the most common questions about the modern world of work.

Workplace changes are happening all the time. Many companies are moving to remote working, which means that people can work from anywhere in the world. This is changing the way we live and work.

Other changes are more gradual, such as the move towards automation. This means that machines are taking over some of the work that used to be done by people. This can lead to job losses, but it can also create new opportunities.

Finally, there are changes in the way we work, such as the move towards flexible working. This means that people can work when and where they want, rather than being tied to a fixed place of work.

These changes are happening all the time, and they are likely to continue. The future of work is uncertain, but it is clear that it is changing.

Answer the following questions:

- What is happening to our working lives as more and more jobs move online?
